## Career Objective

---

Currently undertaking a Bachelor Degree in Software Engineering and Business Management, I am seeking to secure a position that provides me with the experience and knowledge required to further my career path, and ultimately aim to consolidate my university and practical knowledge within a software environment. Through my ongoing commitment to learning, I also endeavour to expand and strengthen my engineering skills and knowledge.

## Education

---

- **Bachelor of Software Engineering and Business Management**  
**Feb 2019 - Current**  
Queensland University of Technology (Expected completion Nov 2023)
- **QUT Business School Executive Dean's List** **Semester 2, 2019**  
*The Dean's List comprises Business students who, in a given semester, complete a minimum of 24 credit points of study towards their Business degree while achieving a Grade Point Average (GPA) of 6.50 or above for that semester of study.*
- **Queensland Certificate of Education** **Dec 2018**  
Northpine Christian College

## Relevant Skills

---

- Working collaboratively with team members to identify, establish and resolve issues with stakeholders.
- Established time management and prioritisation skills.
- Proficiency in C programming, C# object oriented and Python programming.
- Basic level HTML and CSS programming.

## Relevant Employment

---

Aug 2019 - Current **University Student – Buildings & Facilities (Part-Time)**  
Moreton Bay Regional Council

- Maintaining safety through risk assessments, careful monitoring and critical thinking.
- Communicated effectively to develop and maintain positive and respectful interactions with contractors and team members.
- Excellent time-management skills to effectively prioritise duties and responsibilities.

- Managed the tendering process across a number of construction trades for the refurbishment of buildings.
- Actively communicated with important stakeholders to ensure expectations were met.
- Delegated and prioritised tasks to complete projects.

## **Volunteer Experience**

---

July 2018

**Community Service Volunteer**  
STORM Co.

*Storm Co. stands for Service To Others Really Matters and is a short term mission program focused on training young people with the skills and resources to deliver meaningful community service initiatives.*

- Strong active listening skills to build trust and establish rapport with members of the community
- Planned and organised activities and services to holistically meet the needs of the community
- Flexible and adaptable to make adjustments or develop new and innovative solutions to meet changing needs
